

Yoder Lumber
Quality is Our Tradition

Your Complete Resource for Fine Appalachian Hardwood Products

Yoder Lumber is a third-generation, family-owned manufacturer of top-quality Appalachian hardwood products. We have been trusted by customers across the U.S. and around the world for more than 70 years.

We stock most Appalachian hardwood species and select imports. We produce a wide selection of fine Appalachian hardwood products in any volume you need, delivered to your warehouse, factory, or store with short lead times.

Capabilities

- Three modern sawmills
- Extensive drying operations
- Automated grading/sorting line
- Sophisticated dimension lumber production facilities
- Advanced technology
- High-volume capacity
- Dedicated fleet of trucks

Annual Production

- Green and kiln-dried lumber: 12.4 million+ board feet
- Hardwood components: 4.2 million+ board feet

Divisions

Sawmills & Kilns

State-of-the-art sawmills and kilns producing green and kiln-dried lumber, industrial wood products, and specialty items.

Lumber & Millwork

Modern manufacturing facilities producing millions of board feet of dimensional hardwood lumber products in multiple grades and species, including S4S and custom mouldings.

Hardwood Components

Design and assembly of hardwood components for staircases, table parts, and prefabricated components in kits for faster assembly.

Architectural Wood Solutions

Custom Appalachian hardwood products for commercial, retail, restaurant, and architectural interiors.

Rolling Ridge Woods

High-grade Appalachian hardwood veneer logs.

Transportation & Logistics

Efficient, cost-effective delivery of lumber, logs, and other wood and steel products.

Forest Management

Timber harvesting experts committed to responsible forest management.

Yoder Lumber

Sawmills & Kilns

State-of-the-Art Facilities, Top-Quality Products

Yoder Lumber's modern sawmills and kilns produce millions of board feet of Appalachian hardwood lumber each year for customers around the world.

We manufacture a wide array of lumber and other wood products from Appalachian hardwoods and other species for almost any need:

- Green and kiln-dried Appalachian hardwood lumber
- 4/4 to 16/4 lumber in red oak, poplar, cherry, hard maple, soft maple, hickory, ash, beech, grey elm, and red elm in No. 2 Common & Better grades or No. 1 Common & Better
- Quarter and rift sawn lumber for furniture and flooring in thicknesses from 4/4 – 8/4 in white oak, red oak, ash, poplar, and walnut
- Industrial wood products (sawdust, chips, and bark mulch)
- Construction-grade barn beams

Buckhorn Sawmill & Kilns

- Annual production: 9.5 million board feet
- HMC V2110 Double head debarker
- Cleerman carriage 17-degree slant
- 7' Salem Bandmill Headrig – on 17-degree slant with USNR 3D scanning
- 7' Salem Bandmill Resaw with a PHL Linebar with Run around.
- McDonough Optimized Edger – with USNR 3D scanning
- HMC drop saw trimmer
- 45-bay bin sorter with 20 million board feet capacity
- Pre-dryer – Irvington Moore 800,000 board feet capacity
- Six dry kilns – Irvington Moore with 250,000 board feet capacity

Charm Sawmill

- Modern band mill – 3.5 million board feet production
- Rosser head debarker
- 6' Bandmill Headrig
- 42" Cleerman carriage with computerized setworks
- 3-saw edger with computerized setworks
- 2-saw double end trimmer

Green, Kiln-Dried & Dimensional Appalachian Hardwood Products

Yoder Lumber is a trusted supplier of top-quality lumber and millwork. We typically have several hundred thousand feet of green and kiln-dried Appalachian hardwood lumber available, including red oak, white oak, cherry, poplar, walnut, maple, and non-native species. We also stock several thousand board feet of S4S lumber in multiple species and live-edge slabs.

We create custom loads with lengths and grades to meet your needs, ship directly to your workshop, factory, warehouse, or store, and export container loads anywhere in the world.

Our Millwork and Distribution department also offers premium-quality hardwoods in smaller quantities.

S4S, Dimensional Lumber & Custom Mouldings

Our modern millwork manufacturing plant produces S4S, dimensional lumber, and custom mouldings of Appalachian hardwood and other species. We offer custom ripping, sanding, and surfacing.

- Surfacing/planing
- Gang ripping (ripping to particular desired width) for S2S
- 42-in. wide belt sander
- Straight Line Rip 1 Edge
- Automated Cut to Length Saw (Brute Saw)
- Two Kentwood Moulders with maximum of 6-in. thick with 12-in. wide
- Kentwood Grinder for custom knife grinding
- Resaw – splitting thicker material to get optimal yield

We have 800+ custom profiles and can design custom mouldings from your CAD drawings for:

- Cabinetry
- Ceiling trims, beams, and extensions
- Chair rails, wainscoting
- Columns, cornices
- Custom $\frac{3}{4}$ " solid flooring and v-groove paneling
- Door, window, and threshold mouldings and trims
- Fireplace mantels
- Wall crowns, baseboards
- Wall covers, paneling, corner beads

Yoder Lumber

Hardwood Components

Custom Dimensioned Parts & Prefabricated Component Kits

Yoder Lumber is a leading manufacturer of custom dimensioned hardwood lumber parts in large quantities. Our modern, 75,000-sq. ft. Hardwood Components Division plant in Berlin, Ohio has the capabilities and equipment to rapidly process a wide variety of lumber species into high-quality products that come to your warehouse ready to use.

We create products to your exact specifications and prefabricate components in kits for faster assembly at your facility. We provide lumber surfaced and ripped to the thicknesses and widths you need, helping you cut lead time, virtually eliminate lumber waste, and reduce costly overhead.

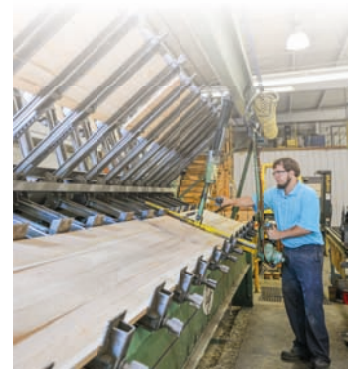

Dimensional Hardwoods Products

Products include:

- Stair parts including treads, risers, and handrail blanks
- Glued-up panels up to 16' in length
- Laminated squares
- Furniture parts
- Finger joint stock
- CNC profiles
- Mouldings up to 12" wide
- Butcher-block countertops

Facility & Equipment

- 75,000 sq. ft. of production space.
- Four kilns with a 250,000 board feet kiln capacity, with multiple acres of air-drying space.
- Annual throughput: 4.2 million board feet.
- Optimizing line with WoodEye scanner and Talon saw.
- Rough mill, automated defecting, multiple gluing lines (up to 16'), moulding, sanding, shaping, and drying.
- Opti-Match optimization system.
- Four automated glue clamps.

ARCHITECTURAL WOOD SOLUTIONS

A Division of **Yoder Lumber**

Custom Appalachian Hardwood Products for Commercial & Residential Interiors

Yoder Lumber's Architectural Wood Solutions division (AWS) supplies the finest Appalachian hardwoods for distinctive commercial and residential environments.

Our lumber professionals work with architects, designers, and builders of commercial facilities, retail stores, restaurants, and fine homes to create custom wood products for almost any application.

We carry many native Appalachian hardwood species and access exotic species and reclaimed material. We will help you plan, specify, and procure the hardwoods you need and create components and products tailored to your specifications.

We have in-depth experience in creating wood solutions for stylish retail stores and sophisticated restaurants, such as:

- Flooring
- Wall cladding
- Shelving
- Counters
- Tables
- Cabinets
- Mouldings
- Fixtures
- Trim

Products & Services

Kiln-Dried Hardwood Lumber

AWS offers a complete range of services from selecting lumber for your exact requirements to precision machining, finishing, packaging, and delivery.

Surfaced 4 Side (S4S) Lumber

AWS has stock inventory of poplar and red oak S4S lumber. Custom S4S orders can be placed by species, thickness, width, and length.

Custom Profile Mouldings

We manufacture a wide variety of architectural mouldings and trims and create custom profile mouldings from your CAD drawings. Our "all-in-house" process assures precision, accuracy, and swift turnaround.

Components & Panel Products

AWS is capable of producing laminated or face-glued components, such as table legs and posts, and edge-glued panels from most species in our inventory, tailored to a variety of specifications. We can also provide secondary machining, CNC machining, and precision sizing.

Rolling Ridge Woods

A Division of **Yoder Lumber**

Top-Quality Veneer Logs from the Heart of the Appalachian Forests

Rolling Ridge Woods is the veneer log merchandising division of Yoder Lumber. We have provided the highest quality Appalachian hardwood veneer and export logs to customers around the world since 2002.

We are located in Parkersburg, West Virginia in the heart of the nation's finest Appalachian forests. We have ideal proximity to a steady supply of high-quality hardwood logs in Ohio, West Virginia, and Pennsylvania and easy access to major highways, rail lines, and large ports for rapid, economical delivery.

We export the very best veneer wood products to customers in Asia and Europe. We containerize logs at our facility for worldwide shipment or load logs onto your trucks. We use S-rons and wax to ensure the logs have a minimal amount of checking. We handle all required paperwork for exporting products to manufacturing facilities anywhere.

We are proud to source logs from local, independent, certified loggers and sawmills, private and public landowners, and our own timberland. Our highly skilled and experienced veneer log buyers select the finest veneer hardwoods available in the central Appalachian region and ensure that you receive only top-quality logs.

Primary Species

- Red oak
- White oak
- Black cherry
- Black walnut
- White ash
- Hickory
- Hard maple

Facility & Equipment

- Annual production of 2.5 million board feet
- 15 acres of high-grade Appalachian hardwood logs
- Two front-end loaders
- One knuckle boom loader

Professional Timber Harvesting & Responsible Forest Management

Yoder Lumber has harvested Appalachian hardwood timber in Ohio for more than 70 years. Generations of landowners have trusted us because we do business ethically, honestly, and fairly, and we treat their land like it's our own.

Our professional foresters work with you to develop a customized harvest plan that improves the integrity of your land and conserves your future forestry assets.

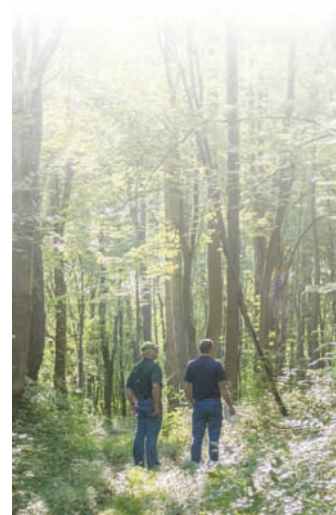

Protecting Your Property & the Environment

Yoder Lumber employs professional foresters and certified master loggers to harvest your timber. These educated, trained professionals are committed to sustainable forest management, using practices that protect the environment and your property to ensure a healthy forest for future generations.

Competitive Prices & Free Evaluations

Yoder Lumber is a fully integrated wood processing company. From standing timber to logs to green lumber, kiln-dried lumber, and dimension parts, we utilize all marketable species and grades of your timber to maximize your return.

Dealing directly with us eliminates middle men, commissions, and percentage fees. If you have a woodlot of 20 acres or more, contact our forestry team for a free evaluation.

Certified Master Logging Company

Yoder Lumber is certified as a voluntary Master Logging Company by the Ohio Forestry Association. Our careful, professional approach to harvesting follows the state's Best Management Practices for reclamation.
